

"Over-enthusiasm" of buyers sometimes handicaps a store very heavily—but a little "over-zeal" in advertising will adjust things.

VOL. CVII. NEW SERIES—NO. 13,998.

LOUISVILLE, MONDAY MORNING, APRIL 29, 1907.—10 PAGES.

PRICE (THREE CENTS, FOR THIRTEEN PAGES)

# The Courier-Journal.

This should be the greatest year for your store's growth—if it's the greatest year for your store-advertising.

**The Weather.**  
Forecast for Monday and Tuesday:  
Kentucky—Fair Monday; Tuesday, showers and colder.  
Tennessee—Fair Monday; Tuesday, showers, colder in west portion.  
Indiana—Fair in south, rain and colder in north portion Monday; Tuesday, fair, rain in south portion; fresh north wind.

## THE LATEST.

Political interest this week centers in the possibility of a definite announcement of his candidacy for the republican nomination for President on the part of Secretary of War William L. Taft. To-day he is to address the business men's club at Cincinnati, but in view of the fact that he seems to have taboos politics in his public utterances since going to Ohio, it is considered doubtful whether he is coming to this meeting. Before he leaves the West he is expected to confer with some of his Ohio political friends and some positive action may result.

The International Maritime Exposition organized by the French Naval League will open at Bordeaux May 1 and continue until October 31. The exposition is to commemorate the centennial anniversary of the invention of steam navigation by Robert Fulton. The United States, Great Britain, Russia, Italy, Japan, Belgium, Mexico and France have sent exhibits and in some cases warships.

Fiske and Belasco, leaders of the independents in the theatrical war, claim that their position will be strengthened instead of being weakened by the combination effected between the Shuberts and Klaw & Erlanger. They expect to issue a statement of their position on Tuesday and promise some sensational announcements. The new combination will have vaudeville war on its hands at Chicago.

The messenger, of Rome, says the reason for the delay in the transportation of the remains of Pope Leo to the church of St. John Lateran is due to a disagreement among Cardinals Adami, Latini, Rampolla and Merry del Val, who form the committee having the transfer in charge, some wishing to have the function entirely private and others of a semi-official character.

A novel test to determine how to expend the \$3,000,000 appropriated by Congress for purchasing submarine boats for use in the navy will be commenced off Newport to-morrow. The Holland boat Octopus and the Simon Lake boat Lake will take part in the contest which is intended to determine which is the more available type.

President Cipriano Castro, of Venezuela, according to information received in New York, will retire from office on May 23. Although this date might suggest here some other cause for his retirement, the reason is his continued ill-health. He will seek recuperation in Switzerland. First Vice President Gomez will succeed him.

The independent cigar manufacturers in Havana have declared their factories April 29 in sympathy with the strikers of the tobacco combine and as a result 3,000 cigarmakers will be out of employment. The combine's employees struck two months ago to compel payment of wages in American instead of Spanish money.

Secretary Taft spoke at Dayton, O., at the laying of the corner-stone of the Y. M. C. A. building and also laid the corner-stone himself, using a trowel with the skill of a master mason. He praised the Y. M. C. A. especially for the work it has done and is doing among the American residents and army in the Philippines.

The question as to who will rule Zion City built under the direction of the late John Alexander Dowd is expected to come to an issue on Wednesday, as William Glenn Voliva has issued an ultimatum declaring that unless the people accept him as their head by May 1 he will take radical action to assert his control.

Over 300 members of the Vienna Manneresing Verein, accompanied by their conductors, Kremser and Neuberger, are due to arrive at New York May 4 on board the German steamer Oceana from Genoa. Concerts will be given in New York, Washington, Philadelphia, Baltimore, Buffalo and Milwaukee.

While en route to the scene of a wreck on the Grand Rapids and Indiana road, near Collette, Ind., Frank Kenworthy's auto crashed into a telegraph pole and he was thrown out, his neck being broken. Others in the party escaped. Two persons were badly hurt in the wreck.

The locomotive and one coach of a passenger train on the Wabash railroad left a trestle near Bridgeville Station, Pa., and plunged into a creek. The other coaches, in which, fortunately, all the passengers were, stuck to the rails. The fireman and engineer were killed.

The funeral of Gen. H. B. Lyon was held yesterday at Eddyville, Gen. Lyon was the last survivor of the Orphan Brigade who were the stars of a Brigadier General. On account of his son not having arrived, the burial will not take place until to-day.

## MAY DAY FREE FROM STRIFE

Little Labor Trouble In Prospect For Wednesday.

Reports Indicate Peace Over Most of Country.

Absence of Building Trades Strikes a Feature.

NEGOTIATIONS IN LOUISVILLE.

May day in the United States this year will be free from strife between labor and capital than for some time, according to advices collected by the Associated Press from the various industrial centers of the country. The sun will rise Wednesday over a scene of industry not marred by the destructive conflicts usual to the season. A discordant note comes in the dispatches from San Francisco, where two big strikes are threatened, and from Salt Lake City, where a street-car strike has just been inaugurated. Some unrest is reported among mill operatives in New England. Boston has a teamsters' strike and several minor troubles of a local nature are reported, but the general labor outlook is one of unusual promise. A striking feature is the absence of trouble in the building trades.

In Louisville, negotiations are pending between the carpenters, union job printers and cigarmakers and their various bosses. The carpenters and printers want an eight-hour day and the cigarmakers are asking an increase in wages. Trouble between the carpenters and their bosses and the printers and their employers is feared.

VERY HARMONIOUS IN CHICAGO Scarcely a Cloud on Horizon In Windy City.

Chicago, April 28.—The relations between employer and employee were never so harmonious in Chicago as now. In the past on May 1, there has always been some sort of strike going on between the labor unions and the employers in Chicago, but this year there is scarcely a cloud on the industrial horizon.

Every union in the building industry with the exception of the structural iron workers has renewed contracts with employers and the iron workers expect to reach a settlement without a strike. Machinists have demanded an increase of twenty-five cents a day in wages, but the indications are that there will be practically no trouble in putting the new schedule into effect. Most of the larger firms in the city have signified a willingness to grant the increase, and if any strikes are called May 1, they will be confined to individual firms.

Agreements covering all the woodworkers' mills and factories have been entered into, so that there will be no trouble in that line of industry, while the bricklayers are now holding conferences with their employers and will undoubtedly reach a settlement before next week. Most of the unions of teamsters are working under agreements, and little trouble is expected in that direction. The railroads which recently granted wage increases to the men Eastern train service are now doing the same in their mechanical departments.

OUTLOOK IN NEW ENGLAND. Unrest In Cotton Mills and Some Trouble May Come.

Boston, April 28.—According to officers of workers' organizations, the industrial situation in New England, May 1, will be marked by fewer contentions between capital and labor than for many years. In the building trades, several small strikes are threatened in a number of cities, but in Boston there promises to be little suspension of work in any branch of industry.

The building laborers' unions, the members of which are unskilled, have requested new wage rates. It is understood prospects for settlement without a strike are favorable. The painters of Eastern Massachusetts are endeavoring to establish a uniform wage of \$2 a day minimum in metropolitan Boston, but there will be no strike as the wage question will not be adjusted until later.

The most serious condition existing in Boston is due to the strike a month ago of teamsters. In New England at large there are several causes of unrest in cotton mills and it is reported that an attempt will be made to advance wages in Fall River sometime next month.

TROUBLE AHEAD FOR FRISCO. Street Car and Metal Trades Strikes In Prospect.

San Francisco, April 28.—The approaching May 1 strike in San Francisco facing serious labor troubles. Eleven unions, including every branch of the metal trades, have called meetings to be held between now and next Tuesday night to consider the refusal of employers to grant an eight-hour day and higher wages. If a strike should be voted the entire street car traffic of the city will be paralyzed. The strike of steam laundry workers is still on, with no immediate prospect of settlement.

VERY PEACEFUL AT ST. LOUIS. Practically All Wage Scales Over Big Territory Signed Up.

St. Louis, April 28.—Employees and labor leaders of St. Louis and the Southwest report labor conditions better for May 1 this year than for many years past. Practically all wage scales in St. Louis and the surrounding territory for 200 miles are signed. In St. Louis alone this includes 120,000 union men.

The unions allied with the Building Trades Council here are all signed for the year with the exception of a very few men employed in small shops. There are about 40,000 men in these unions.

Other branches of trade show a similarly good condition. The brewery workers, who were on a strike a few months ago, are now signed as are also the other important trades. Employers and labor leaders say there will be nothing this year in local circles to hinder great building activity.

BRIGHTER THAN FOR YEARS. Labor Outlook In New York City and Empire State.

New York, April 28.—The opening of the out-of-door construction season finds New York, both city and State, without apprehension of serious labor troubles. In the building trades especially prosperous and reassuring conditions prevail. There is a large and well-paid demand for both skilled and unskilled labor to-day. The extensive private construction projects now under way, and the tunnels, railway terminals and other undertakings of a public or quasi-public nature. This contentment is generally reflected in the manufacturing and industrial centers, and beyond a few localized and sporadic strikes the labor situation is regarded as brighter than for many years.

LITTLE FRICTION ANTICIPATED. Slight Differences Only Mar Quarter City Outlook.

Philadelphia, April 28.—May day, according to present indications, will pass in this city with little friction between workmen and employers. With few exceptions the agreements under which the union men are working are acceptable. At a meeting of the Central Labor Union to-day it was said there would be few labor troubles. The small unions in the building trades have secured all the concessions asked and the carpenters and painters have but slight differences. Many of the larger firms have agreed to give the men what they ask, and labor representatives say they believe the differences will be settled during the week.

ONE STRIKE ON AT PITTSBURGH. Unusually Peaceful Labor Situation In Smoky City.

Pittsburgh, April 28.—May day here is expected to pass off with fewer labor disputes than in previous years. Here, too, considerable difficulty has been experienced with the workmen in the building trades, but this year scales have been reached with the exception of the machinists. The latter are striking for an increase of wages and shorter hours. At two foundries the men are now out, and the trouble may become general unless the union scale is agreed to by May 1.

CAR STRIKE ON AT SALT LAKE. Disorder Follows Efforts To Operate With Nonunion Men.

Salt Lake City, Utah, April 28.—A strike was declared on the street car line of the Utah Light and Railway Company to-day, 450 men walking out. Numerous scenes of disorder followed attempts by the company to operate a few cars with nonunion crews, and all efforts to maintain even a partial service were soon abandoned.

FAST L. & N. TRAIN UPTURNED IN DITCH. TENDER JUMPS TRACK, WRECKING FOUR COACHES NEAR PEMBERKE.

Hopkinsville, Ky., April 28.—[Special.]—Fast south-bound Louisville and Nashville passenger train No. 53 was wrecked this morning at Pembroke by the engine tender leaving the track, causing the baggage car, day coach and two sleepers to go into a ditch and turn partly over. The train was going at a rate of forty-five miles an hour, when the tender, for some unknown reason, jumped the track one mile out of Pembroke.

Engineer Satterfield kept his engine going, hoping to bring the train to a stop gradually, and would have succeeded had not the derailed tender gotten entangled in a switch, throwing four cars off also.

No one was injured except Baggage Master John Savage, who was crushed by a trunk falling against him. The train was torn up so badly that traffic was delayed until 4 o'clock this afternoon.

ACCUSES MAN HANGED FOR MURDER OF WOMAN. Man Arrested At Lexington On Forgery Charge Says J. W. Bess Was the Guilty Man.

Lexington, Ky., April 28.—[Special.]—E. R. Dulaney, of Danville, Ill., was arrested here to-night on a charge of forgery, alleged to have been committed about six years ago. The check was for \$500 and was signed with the name of George Collins, of this city. Dulaney acknowledged that he cashed the check, which he says, however, was given him by J. W. Bess, who was hanged here about three years ago for the murder of Amanda Martin.

Dulaney says he was in Lexington on a visit at the time and he and Bess went on a spree, when Bess gave him the check. He was good, and he cashed it, and Bess spent the receipts in liquor. Dulaney returned to his home in Danville, Ill., soon after the check was cashed, and not having been here since, the officers filed away the warrant until he should return. He arrived here to-day on his way to Keene to visit his sister, and was captured by the detectives.

In the meantime, Bess, who, Dulaney says, was the real forger, murdered Mrs. Martin and was executed. Dulaney is anxious to pay the amount of the check on condition that he shall be released, but the officers will hold him for prosecution for forgery.

## TAFT HANDLES TROWEL WELL

Spreads Mortar Like a Regular Master Mason.

Chief Speaker At Laying of Corner Stone.

Praises Work Done By Y. M. C. A. In Philippines.

HANDSOME DAYTON BUILDING.

Dayton, O., April 28.—Secretary of War Wm. H. Taft delivered the principal address here to-day at the laying of the corner-stone of the new building of the Young Men's Christian Association. He also handled the trowel as the stone was lowered into its place and smeared the mortar around like a master mason.

The Secretary, in company with his brother, Charles P. Taft, left Cincinnati early to-day and arrived here at noon. His friends had planned a parade of civic societies before the laying of the corner-stone, but by the wish of the Secretary this was dispensed with. The members of a local committee who greeted him at the depot escorted him to the Algonquin Hotel, where luncheon was served.

All Sing "America." At its conclusion the Secretary, still in charge of the committee, went across the street to the association building, where the exercises took place. These consisted of an invocation by the Rev. M. H. Anderson and addresses by W. H. Thresher, H. A. Wilbur and the Rev. W. J. Shuey, of Dayton, besides the speech delivered by the Secretary.

The singing of a number of hymns and of "America" by the audience was also on the programme. The Secretary, who was given a flattering reception by a throng of about 5,000 people, spoke in substance as follows:

On Business Basis. The great advantage of the institution is that after long experience, it has come to be conducted on the most approved business principles and, while it furnishes on the one hand an opportunity for the contributions of those who have their lowly means, it furnishes on the other an example of assistance to those who need assistance which is not extravagant or excessive and which does not discourage self-help by creating a spirit of dependence in those who enjoy the benefits which it offers.

Another characteristic of the association is its nonsectarian religious quality. It believes in the Christian religion; is tolerant, liberal in its scope and knows no denomination, no race, no politics. The truth is that the Young Men's Christian Association has been an example of assistance to those who need assistance which is not extravagant or excessive and which does not discourage self-help by creating a spirit of dependence in those who enjoy the benefits which it offers.

Another characteristic of the association is its nonsectarian religious quality. It believes in the Christian religion; is tolerant, liberal in its scope and knows no denomination, no race, no politics. The truth is that the Young Men's Christian Association has been an example of assistance to those who need assistance which is not extravagant or excessive and which does not discourage self-help by creating a spirit of dependence in those who enjoy the benefits which it offers.

Secretary Taft said that he had not thought it especially appropriate for him to deliver an address on this occasion, as he had not been particularly identified, as an individual, with Y. M. C. A. work. "But when I remembered," he said, "the opportunities we have for other men, the usefulness of this association in the Philippines, on the Isthmus of Panama and in other foreign dependencies, I felt I should be falling to render testimony which was due this occasion if I did not say something upon the subject of the scope of its operations."

"I had to put myself seven thousand miles from here to really know the power for good this association exerts."

Usefulness In Islands. "But nowhere," said the Secretary, "is the opportunity for usefulness of the Y. M. C. A. greater than among Americans in the Philippines, Porto Rico, Cuba and the Isthmus of Panama. It is inevitable that a great majority of the Americans who get first to our tropical dependencies, a long distance from the United States, should be wandering and irresponsible."

Nothing contributes more to the support of the views of opponents in our plans of progress than the presence in Manila and other cities and towns of dissolute Americans, whose example is anything but edifying, and form an object lesson to enforce the claim made by our opponents that there is nothing of value in American civilization for them to follow. Their people are generally a temperate people, as most tropical peoples are, while Northern people in the tropics are not infrequently given to intemperance.

Now the way to avoid this is to furnish a place in which the leisure hours of Americans in these dependencies can be passed in rational, invigorating and purifying and edifying manner. The Young Men's Christian Association is one of the most effective instruments to this end that we have. Recently Mr. Mowat, of the association, raised in this country \$80,000 for the construction of a building in Manila, on condition that \$50,000 should be added to the \$30,000 by this purpose by the citizens of Manila. It is speaking highly for the public spirit of the Americans and others in Manila, and for the energy of the agents who represent the association in Manila, that in a very few days after the offer became known, although business conditions are by no means highly prosperous, \$42,000 were raised, and the grand enterprise has become a completed thing.

At the conclusion of the programme the Secretary and the committee returned to the hotel, where refreshments were served. He left Dayton at 6 o'clock and returned to Cincinnati.

WILL HAVE BUSY DAY. Two and Perhaps Three Speeches To Be Made In Cincinnati.

Cincinnati, April 28.—Secretary Taft will deliver two and possibly three addresses here to-morrow. In the morning he will visit the University of Cincinnati, where he is a professor in the law school, and will deliver an address to the students. Later in the day he may visit the Chamber of Commerce for a short time. But this is not yet definitely settled.

In the evening he will speak to the members of the Business Men's Club on "The Panama Canal." This address will be extensive and will relate chiefly to the changes in the work and improved conditions on the isthmus which have taken place between the last two visits of the Secretary to Panama. Tuesday morning he will return to Washington.

## WILL KEEP UP THEATER FIGHT

Fiske and Belasco Say the War Is Still On.

Claim New Combination Will Strengthen Them.

Statement To Be Issued By Managers On Tuesday.

POSITION IS NOT CHANGED.

New York, April 28.—[Special.]—The Independent Managers' Society, of which Harrison Grey Fiske, David Belasco, Henry Miller and others are members, held an informal meeting to-day to discuss the new theater merger which has joined the Shuberts with the Klaw & Erlanger interests. Mr. Fiske said that there would be a formal meeting of the independents at 11:30 o'clock to-morrow evening, probably at the Lyric Theater, and that a carefully prepared statement of the independent position and future plans would be given out on Tuesday.

The statement, he said, would create some surprise and would show that the position of the managers outside of the syndicate was stronger than ever.

Independents Stronger. "The impression given by the publication of the news of the theatrical merger is all right as far as it goes," said Mr. Fiske, "but it doesn't go far enough by any means. The impression that the independent theaters and managers have been practically put under is not true. When our statement is issued it will be seen that we are much stronger than we were before the merger, stronger than we were last week. The gains we have made have not been conceded by the theatrical syndicate, for we have no traffic with that side, but have been made in another way that will be explained in our statement."

Not Affected At All. "In fact the merger does not really affect the independents at all. The theaters acquired by the new company are for the most part houses that have never been successful. They were only a source of annoyance to the independents and their loss will make our position stronger next season. The Western theaters were acquired recently, under a special corporation form, which gave the Shuberts a majority interest. Mr. Cox had the majority interest all along and the merger did not change the situation. We independents knew of the whole matter long before it was consummated, but we have thought it more dignified part to wait until the other side had said their say before making a statement."

Not Delivered To Anybody. "The one thing that has annoyed Mr. Belasco and myself is the impression that seems to have gone out that we have been delivered over to anybody without our own consent. In fact, we are more secure than ever and I can say for Mr. Belasco and myself that we are more determined to independence than ever and will act in the future as we have in the past. We don't want to go off at half cock, but we mean to place the situation before the public in the proper way. The conclusions drawn from the statement, which is, of course, not quite a fair one, coming as it does from the syndicate, has given only such facts as were favorable to their side. The result is that I have received many telegrams to-day from all over the country asking if it were true that the independents had been swallowed up by the merger. We will show that the proof of the pudding is in the eating of it."

VAUDEVILLE WAR NOW. Chicago Will Be Center of Fight For Business.

Chicago, April 28.—[Special.]—Klaw & Erlanger's combination with the Shuberts will transfer the scene of the theatrical war to the field of vaudeville and will disintegrate the independent forces, according to the gossip of local managers to-day. The effect in Chicago probably will be the construction of a new theater or the transformation of one of the established houses into a vaudeville theater in order to compete with the Klaw & Castle attractions.

The new organization will control four theaters in Chicago, Powers, the Illinois, the Garrick and Colonial. It is believed that either the Garrick or the Colonial will be used as a vaudeville house in case a theater is not built for the purpose.

It is believed that the merger will leave Mr. Fiske, David Belasco and the minor managers associated with the Shuberts in the independent movement in the cold. They probably will be unable to find theaters enough to fill out a season without making peace with and booking through Klaw & Erlanger.

## LITTLE SON CARRYING LUNCH FINDS MAN DEAD.

Waycross, Ga., April 28.—According to the verdict of the coroner's jury, John Grantham, thirty-five years old, was murdered by unknown parties at the new Atlantic Coast line shops here early to-day. The body of the dead man was found by his little son at noon to-day when he went to the shops to carry his father's dinner. The body was about seventy feet from the building, in which Grantham's pistol was found with one chamber empty. The dead man was watchman at the shops, and it was first thought that he accidentally killed himself.

ADVISE OF "THE OX" WAS ALWAYS TO PAY

AGENT OF BAND GAVE COUNSEL TO MEN THREATENED.

HOW "BLACK HAND" WORKED IN PENNSYLVANIA TOWN.

SUSPECTS PLACED ON TRIAL.

Wilkesbarre, Pa., April 28.—District Attorney Salburg feels confident of connections in the case of "Black Hand" suspects who have been placed on trial here.

"I am firmly convinced," said he to-day, "that there is a branch of the 'Black Hand' Society in this county. It is an offshoot of the New York and Philadelphia organizations. I am led to believe this from the fact that Louis Perino, better known as the 'Ox,' was quite active at Brownstown, a suburb of the city of Pittston, until he met death at the hands of an assassin. Perino was not long in this section until a number of stranger Italians from the large cities joined him. The 'Ox' introduced the strangers to the most prosperous Italians as his friends. After the strangers left letters were received by the well-known and wealthy Italians of the place notifying them that if they did not pay over certain sums of money to agents of the society their lives would be in danger."

"Many who received the threatening letters went to the 'Ox' and asked him what they should do. He always advised a settlement, but would agree to accept 50 per cent. of the claim, and give assurance to the parties that they would not be bothered in the future. In most every case the money was produced. The 'Ox' got it, but he was selfish. He wanted the major portion of the money himself. This led to a quarrel with his lieutenants, and one night he was shot down."

"The impression given by the publication of the news of the theatrical merger is all right as far as it goes," said Mr. Fiske, "but it doesn't go far enough by any means. The impression that the independent theaters and managers have been practically put under is not true. When our statement is issued it will be seen that we are much stronger than we were before the merger, stronger than we were last week. ## PEARY LACKS FUNDS FOR TRIP

Disheartened At Failure To Get Needed Money.

May Mean Abandonment of Dash To Pole.

Appeal Made To Public For Financial Support.

SCHOOLCHILDREN MAY HELP.

New York, April 28.—Lack of about \$50,000 to finish the expedition may mean the abandonment of the dash to the North Pole which Commander Robert E. Peary has planned for this summer. The explorer, who has earned the distinction of having reached "the farthest north" and who truly may be said to live for the purpose of revealing to the world the mysteries of the Pole itself, is deeply downcast at the possibility that he may not be able to try again.

"This is a work which I must do, a great work for which I was intended," said Commander Peary to-day to the Associated Press. And with a confidence that his work must be helped from somewhere, he added: "The money will come somehow. I feel certain of that. But if I was

**COFFEE MARKET.**  
New York, April 27.—The market for coffee futures opened steady at unchanged prices, in keeping with featureless cables. Trading was very quiet, and with hardly any demand in export trade prices were held at the same level. The close steady at a net decline of 5/16.
